Cruelty Free

Vegan

At PureCeuticals, we believe that everyone deserves skin care products that are conscientiously produced, natural based, and results-oriented. PureCeuticals are made with high levels of cosmeceutical-grade ingredients, most companies will not show percentages of active ingredients, we want our customers to know exactly what they are getting.

All products are produced in a state of the art dermatology lab in Vancouver, which manufactures using the cleanest, most eco-friendly, lowest carbon footprint possible. With over forty years of experience in organic chemistry and aesthetics, the result is our phenomenal product free of harmful elements, without sacrificing effectiveness. Ingredients selected are naturally occurring – or natural sourced ingredients.

OUR PRODUCTS

We have 2 product lines to choose from, both lines can be mixed and matched.

PureCeuticals (Clinical-Botanical) All products are 90-97% natural and 100% vegan with pharmaceutical grade active ingredients such as peptides, L-Ascorbic acid, retinol, azelaic acid, lactic, salicylic and glycolic acids, niacinamide, and an advanced generation of powerful, naturally derived, anti-aging ingredients - Shelf Life is 12 months.

Part of our Clinical/Botanical we have our **(Advanced Anti-Aging)** (See Bold Products next page) A new generation of patented, powerful anti-aging ingredients derived from natural plant and fruit extracts, including a retinol alternative (Vita-a-Like) and advanced peptides. These powerful ingredients targets the appearance of deeper wrinkles, expression lines and sagging, sluggish skin. Accelerates cellular turnover and regeneration, exfoliation, skin clarity and brightness.

NATURALS LINE

Naturals line is eco-conscience, holistic skincare for a 100% green lifestyle. This collection uses many certified organic ingredients, premium botanicals, super fruit extracts, amazonian fruit butters and nut oils in each product. With naturally based emulsifiers and surfactants, each product is produced in small batches utilizing the purest methods possible, which means it's more costly to produce. Shelf Life 9 months.

Founder Marlene Weber's passion for skin care solutions originated during her early twenties when she developed complexion problems. Not finding skin care products that addressed the root cause of her skin problems, Marlene began learning about how the body works, and the science supporting the mechanisms needed for healthy skin. Wanting to share her knowledge and help others who were suffering from skin problems, she became an esthetician.

Furthering her experience and knowledge-base, Marlene was an integral member of the Product Development Team at Burke Williams Spa. Due to the constant demand of her skin care expertise, she branched out on her own, and began her own business. Marlene then assembled a team of experts, to bring to market an innovative, results-oriented skin care line that is available to everyone. The result is PureCeuticals: quality, reasonably-priced skin care products that you can commit to for the long haul.
